October 24, 2005

To whom it may concern,

The intent of this letter is to clearly delineate the services available for burn patients through Hyperbaric Medicine. The "Undersea Medical and Hyperbaric Society Magazine" has cited improvement through high intensity oxygen therapy for burn patients. Patients improvement through oxygenation of tissues is substantial in the recovery of injured cells which would otherwise necrose and die. For the severity of Mr. Phillippe Sanchez who sustained second and third degree burns to the face and ears a 20 course cycle is recommended with wound care following.

Anticipated expenses for this treatment are as follows:

		Total:
Initial Physician evaluation	\$225.00	225.00
Weekly Physician Evaluation	200.00	800.00
Hyperbaric Treatments @2.0psi for 60 min	425.00	8,500.00
Wound Care following treatments	75.00	1,500.00
		-----
		\$11,025.00

Sincerely,

Dr. Platt  
Hyperbaric Physician
